PROFESSIONAL SUMMARY

BFA Animation graduate from NTU's School of Art, Design and Media who solo-produced a 2D animated short through the full production pipeline, from storyboard to animatic to final frame, for an official Annecy International Animation Film Festival selection. Comfortable across the animation stack (Adobe After Effects, Autodesk Maya, Rough Animator) and the craft fundamentals behind it: character rigging, compositing, storyboarding, and traditional drawing. Has since directed a larger multidisciplinary capstone spanning illustration, world-building, and original music, and produced motion graphics explainer content for an ed-tech launch audience.
