

JASMINE

HOW TO MINE JAZZ?

Everything that Jasmine's parents ever dreamed of was here at New York,
A stable job, a reputed company, great career prospects and more.
Yet somewhere, amidst the bustling lives, thriving art scene and music,
Jasmine finds herself dreaming of going back to where she left her dreams
behind at. Singapore.

But what does Jasmine really want ?

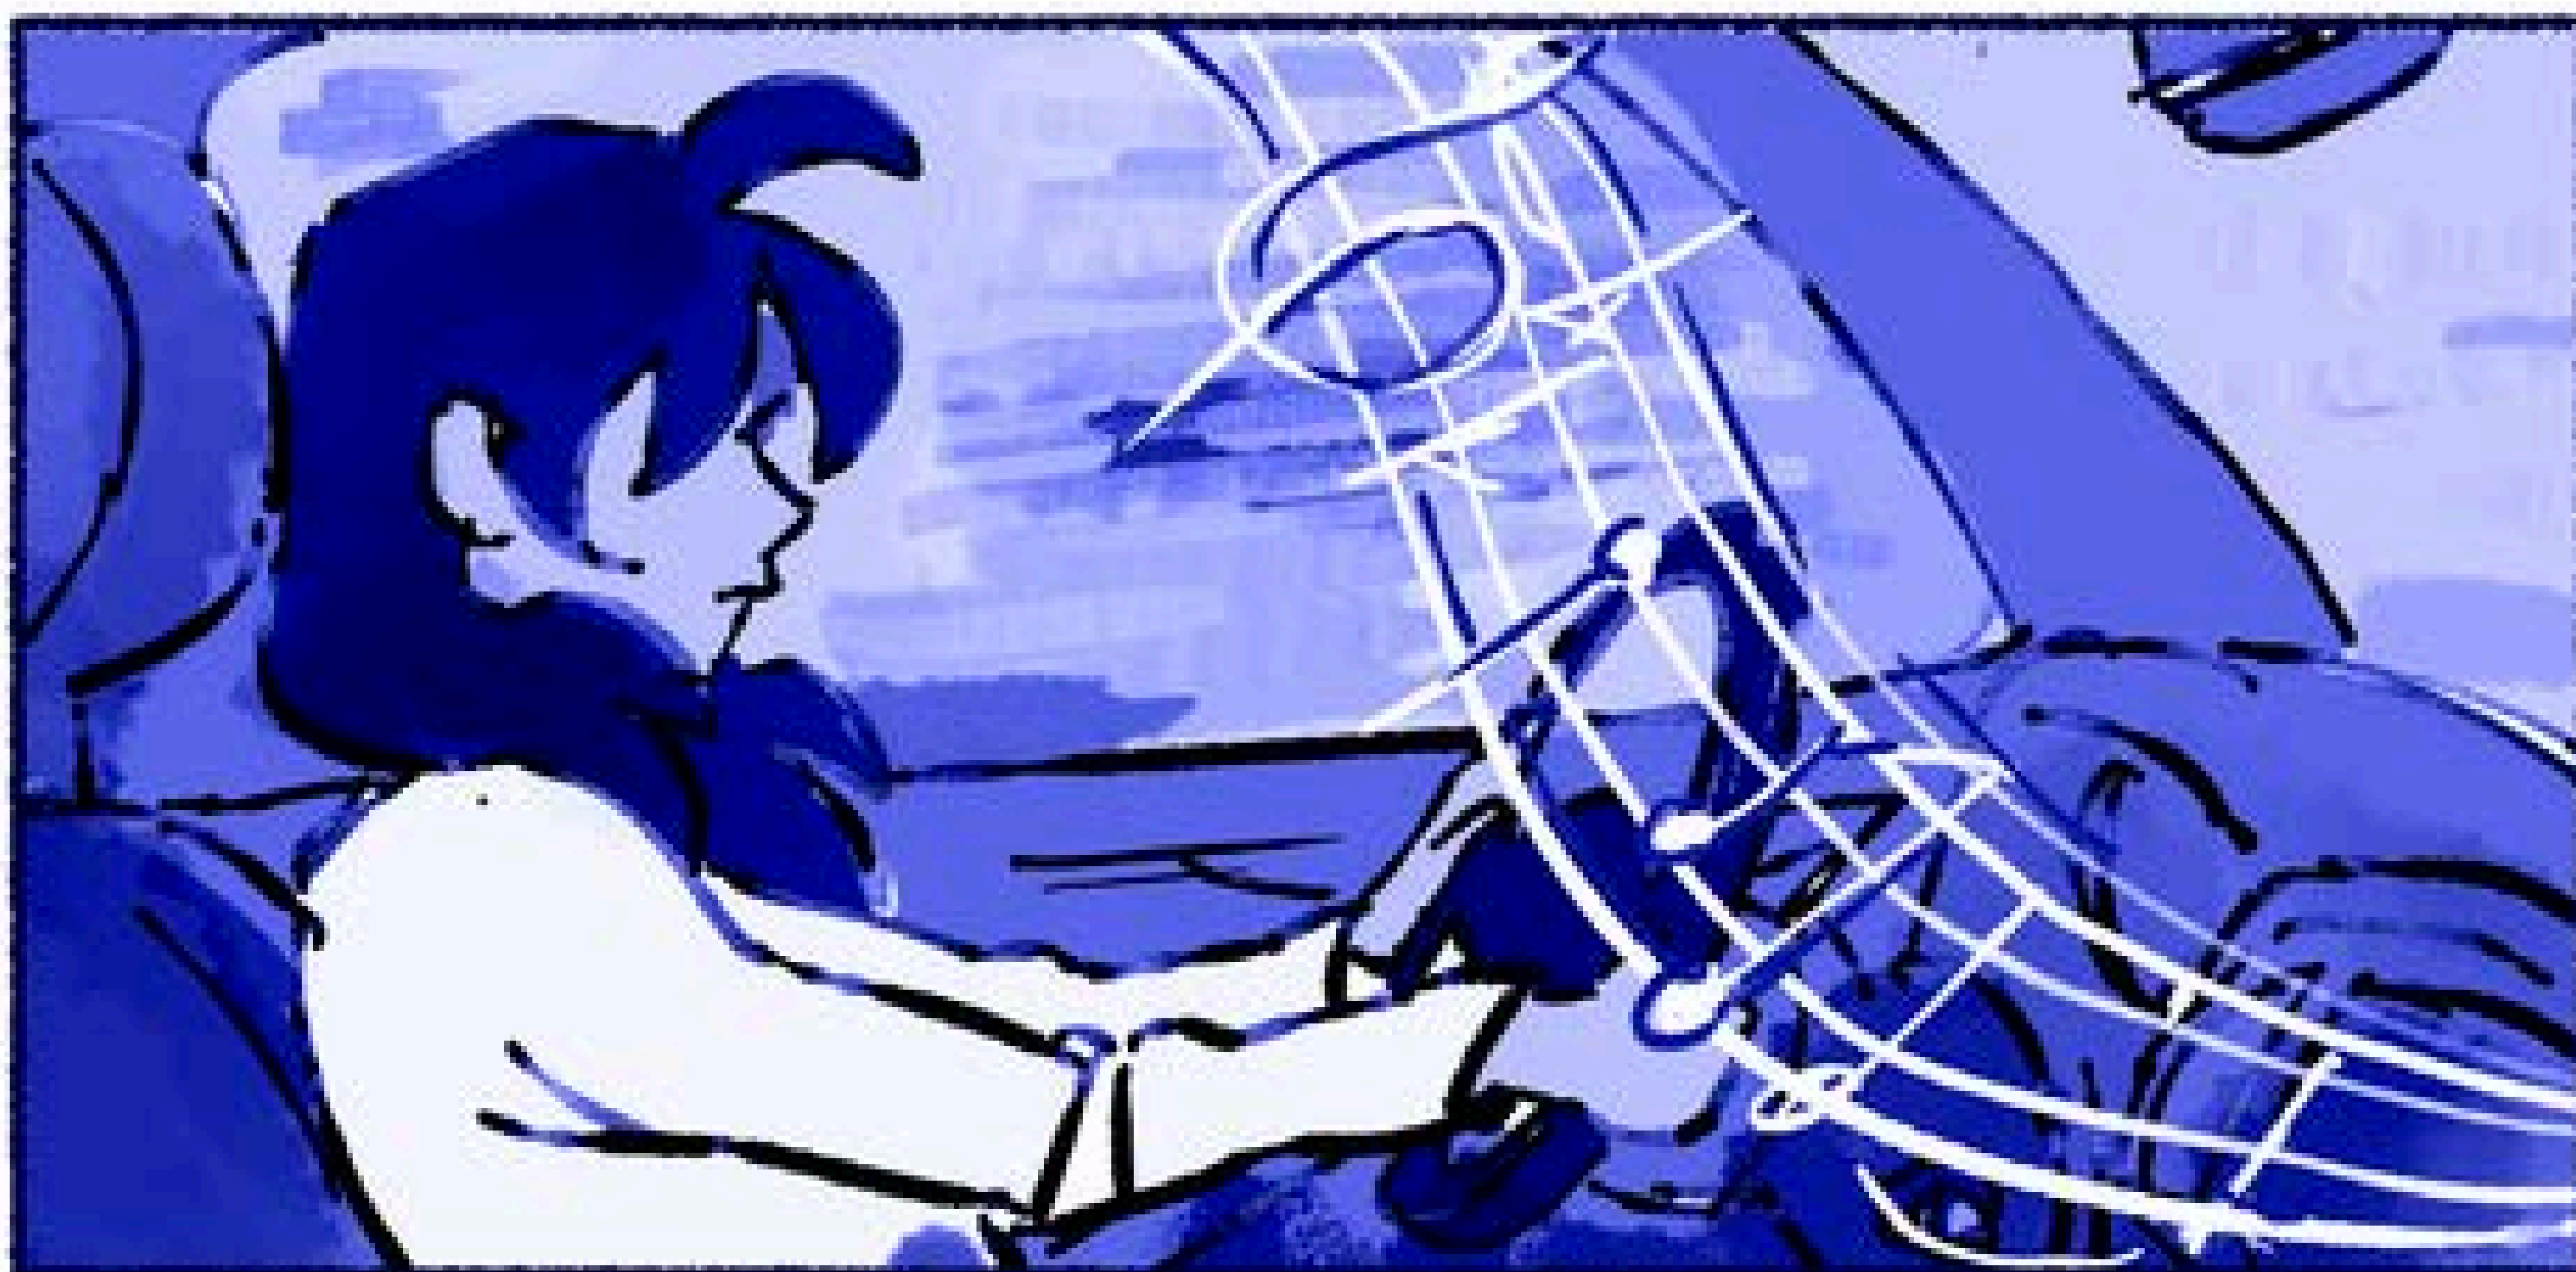

Welcome, to Jasmine.

CHARACTER TALKS!!!

q- Other than guitar are there any instruments you play?

I have tried my hand at drums and piano before but guitar feels the best for me. Although if I am performing vocals, I prefer to just sing sometimes.

q- Other than Jazz what music have you played/performed before?

I have a background in classical music particularly Indian hindustani music! My parents made me learn it for 6 years haha! It made me have a good foundation!

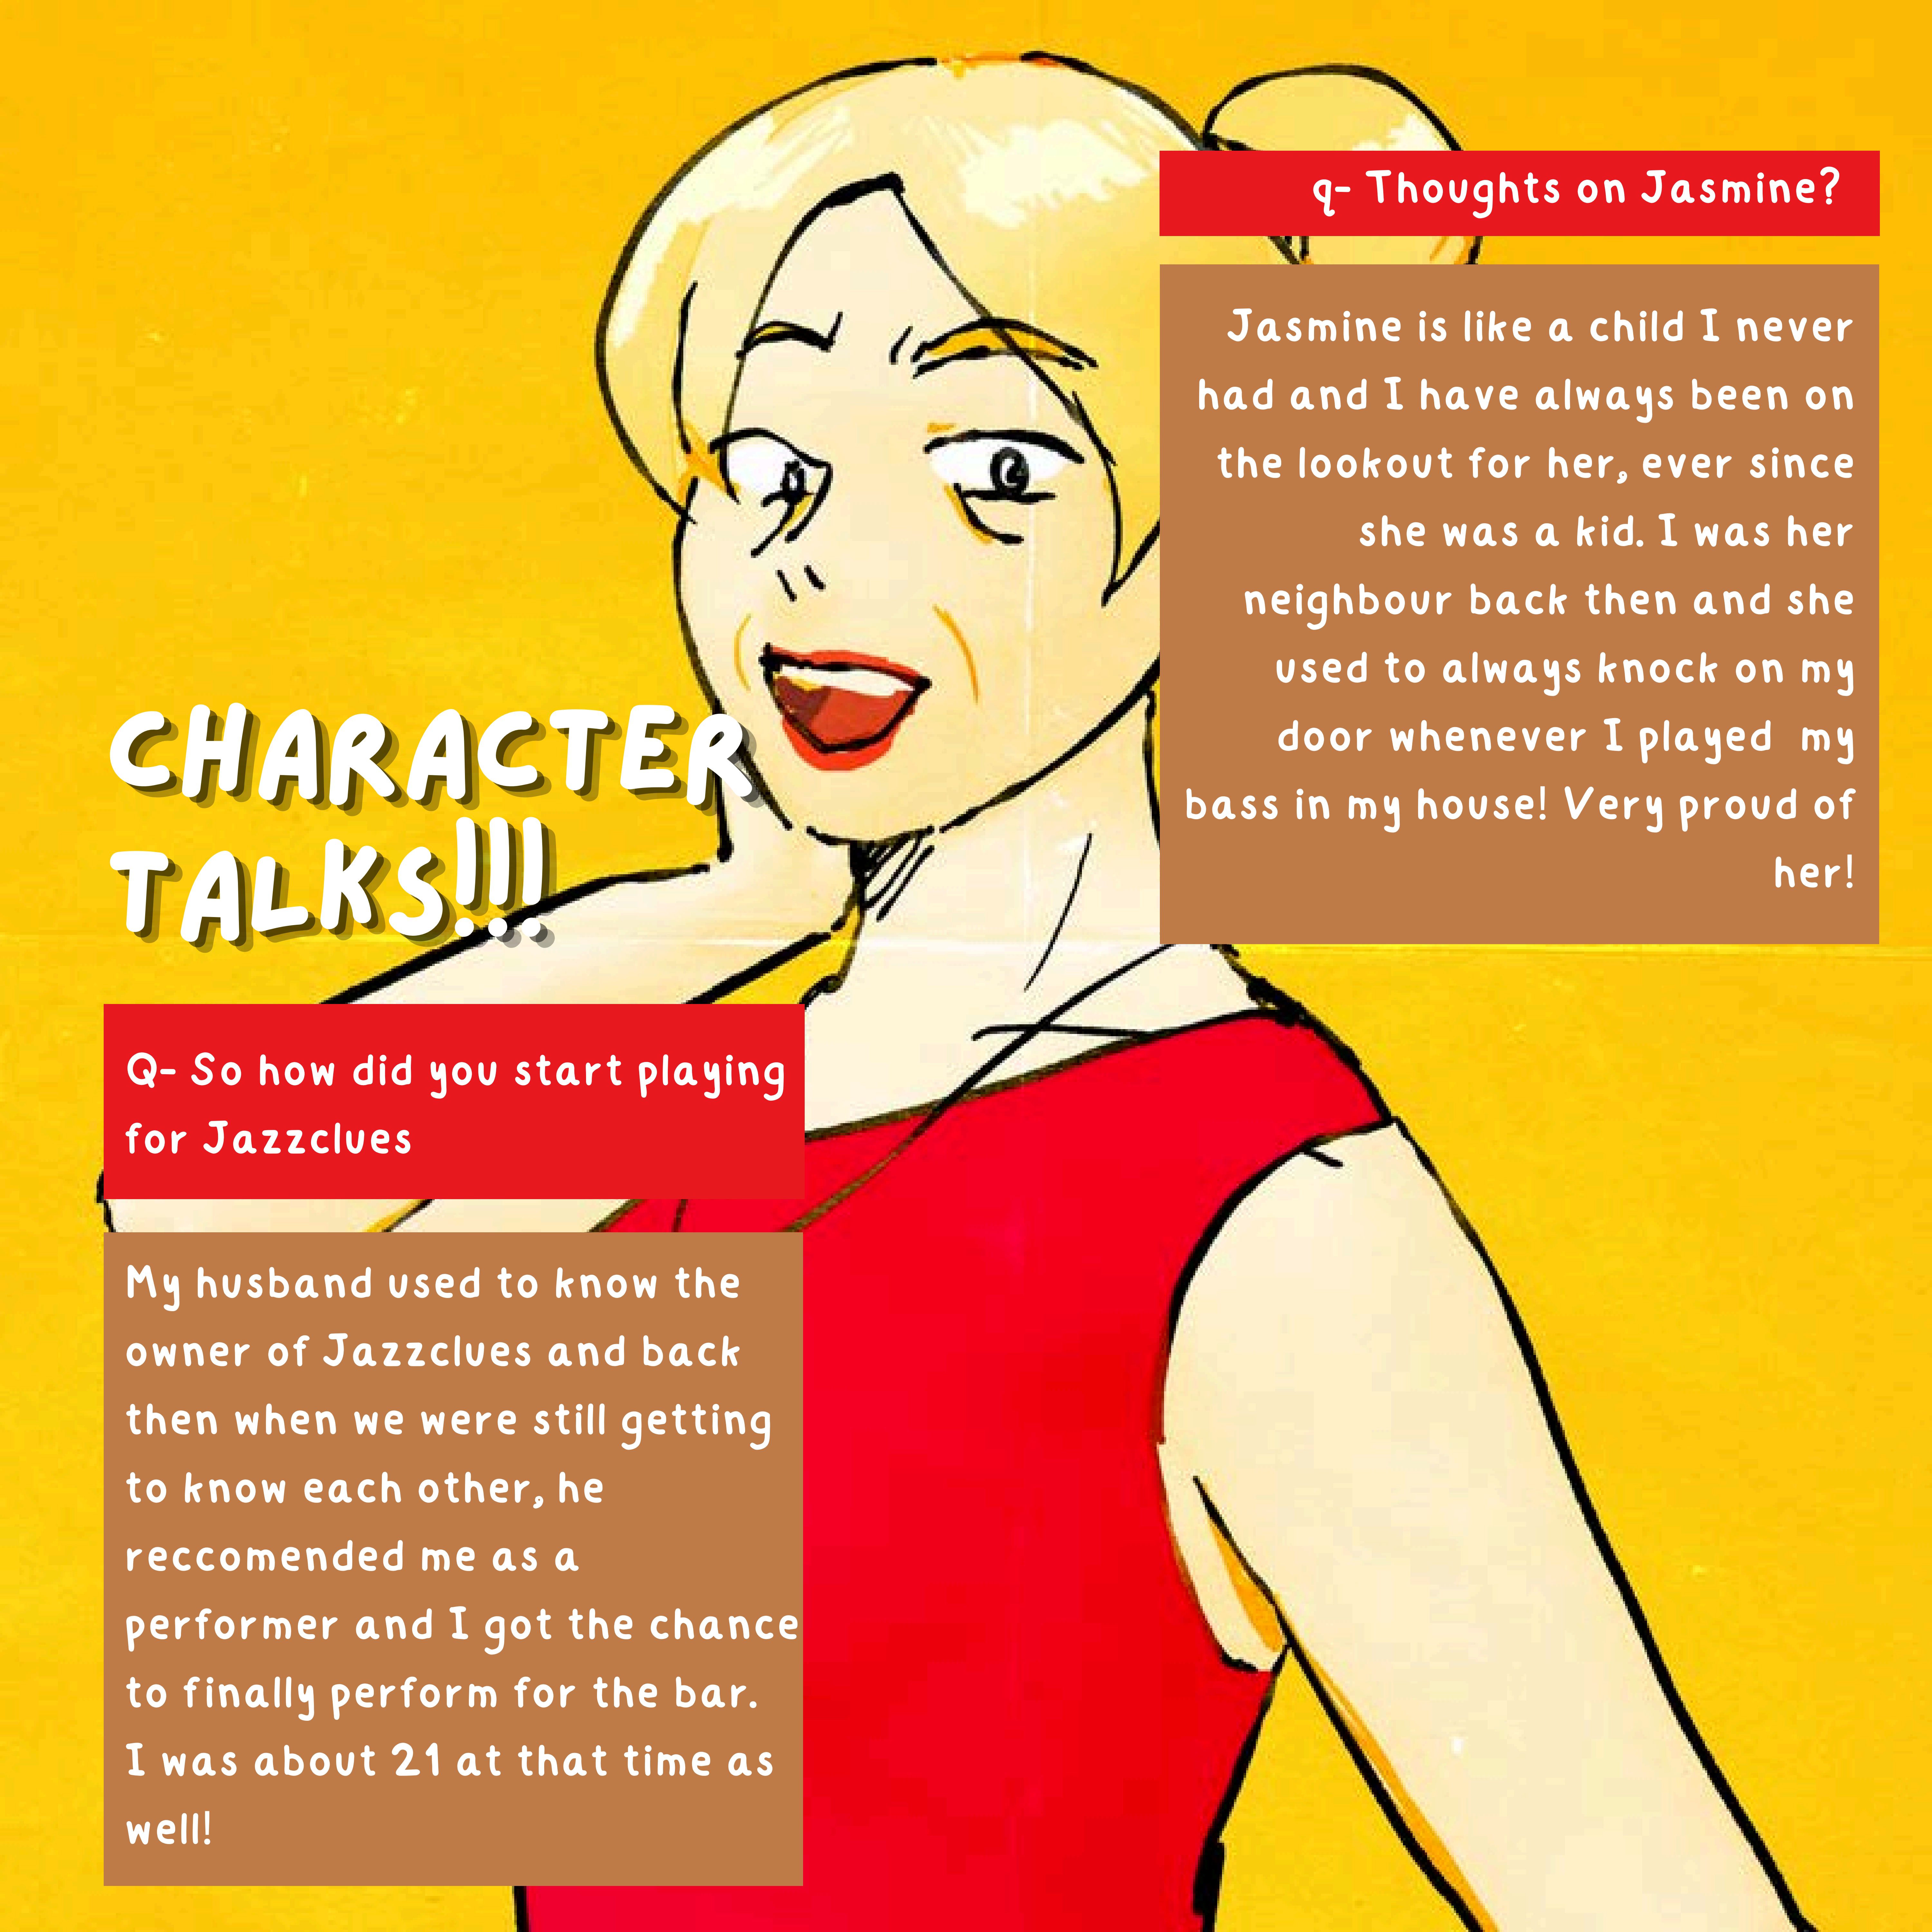

CHARACTER TALKS!!!

q- Other than being a saxophone player, what else do you do for work?

I'm actually a full time coffee shop owner! My cafe is called "Blu hour" and it was originally run by my father. I took over the shop when he suddenly passed away in 2018 and I had to quit music school for that. But I do not have any regrets doing this.

q- Thoughts on Jasmine?

The bar or my friend? Hahaha
Jasmine is like a sister I've never had, she is a wonderful person who always tries her level best at whatever she does. She is also kind of impulsive but that is not really a negative.

CHARACTER TALKS!!!

q- Thoughts on Jasmine?

Jasmine is like a child I never had and I have always been on the lookout for her, ever since she was a kid. I was her neighbour back then and she used to always knock on my door whenever I played my bass in my house! Very proud of her!

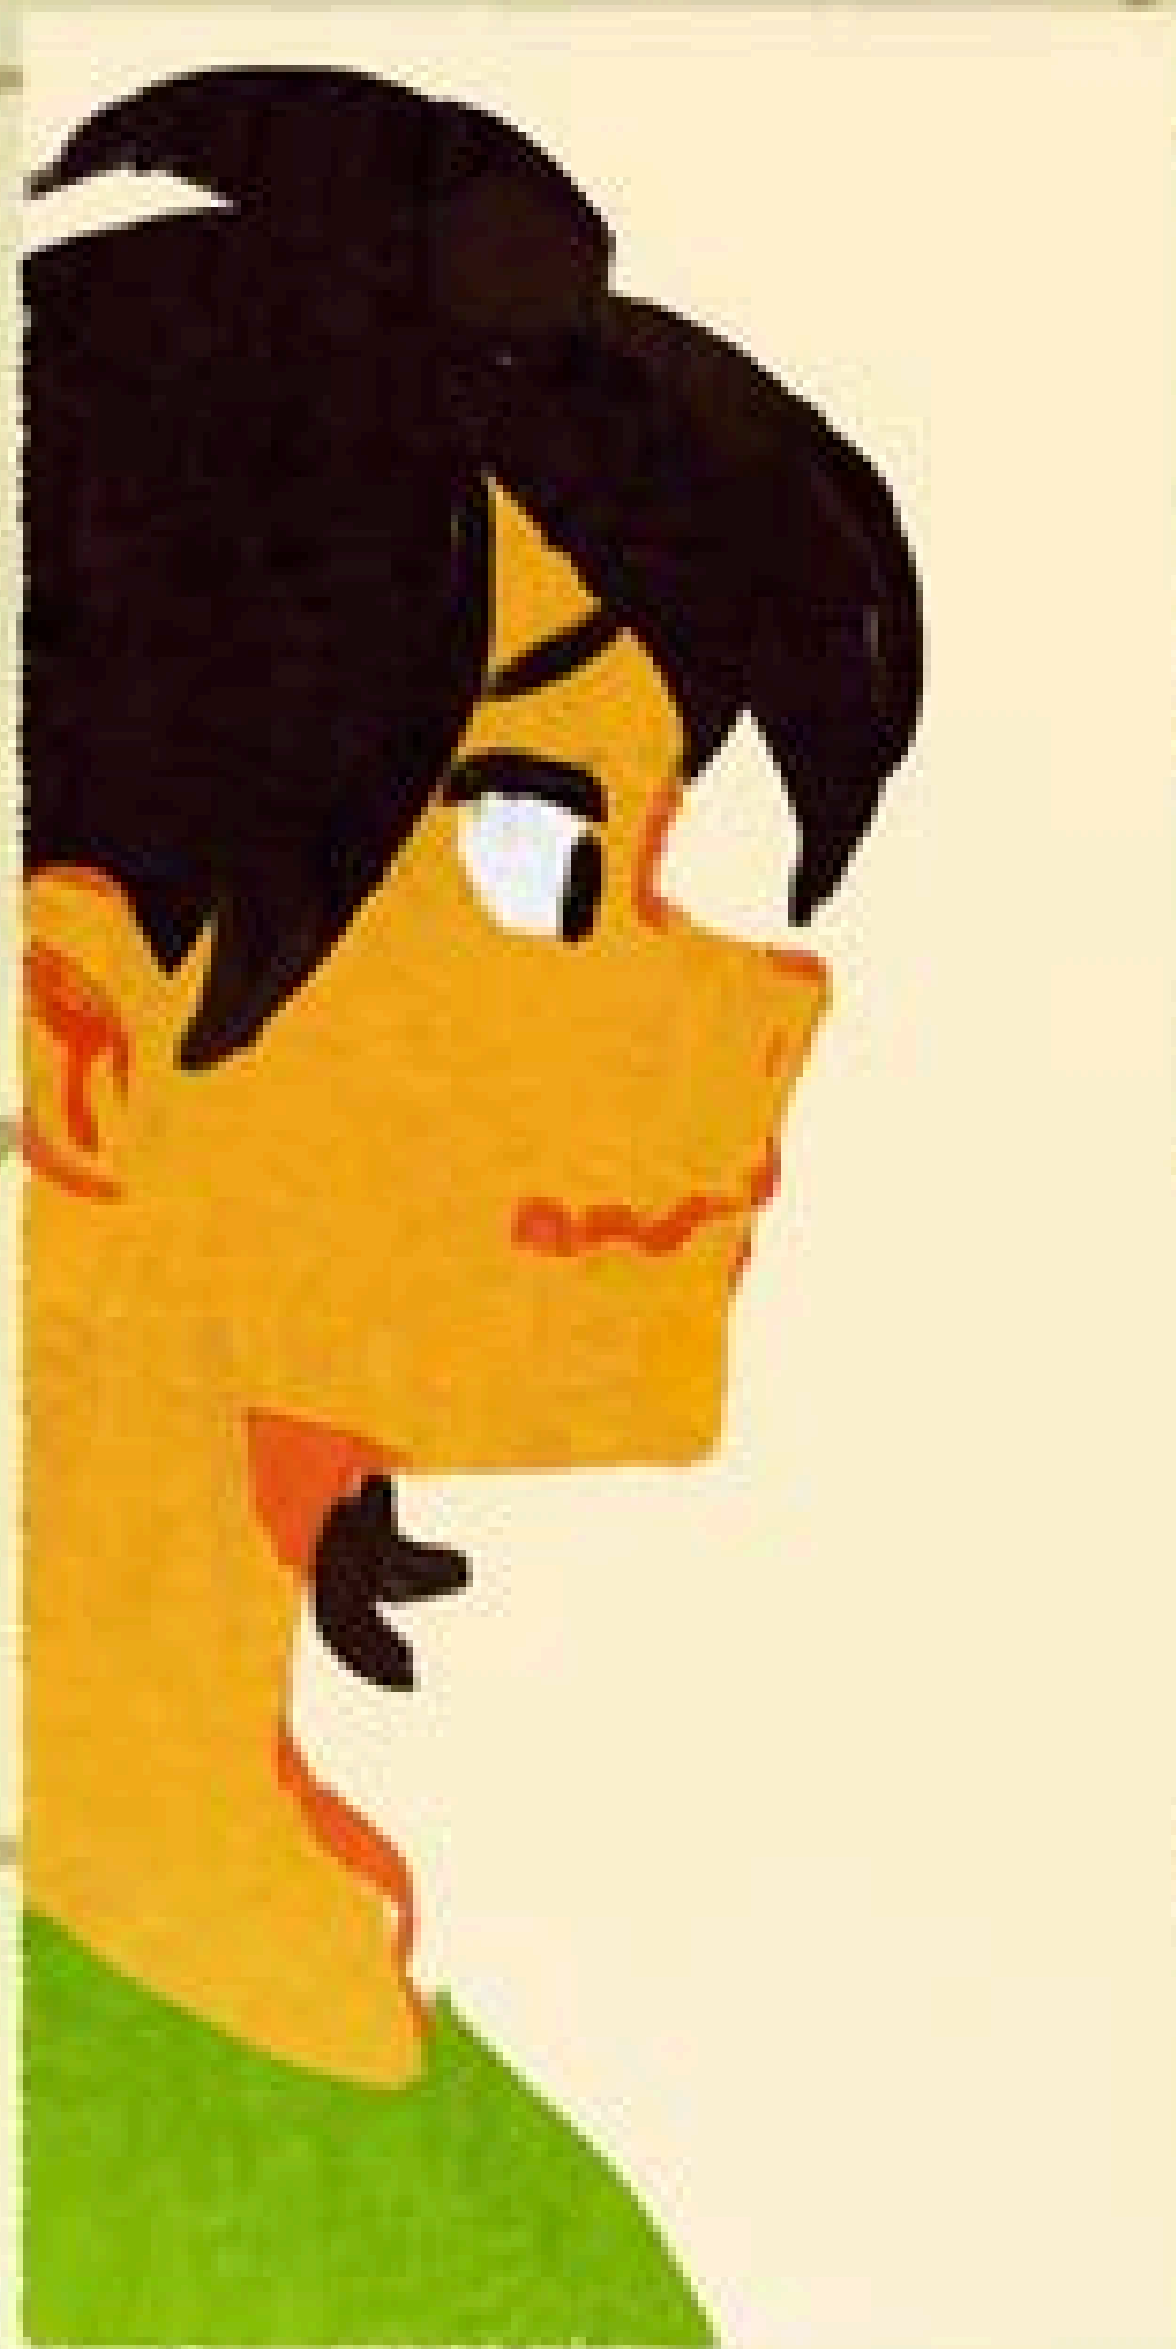

Q- So how did you start playing for Jazzclues

My husband used to know the owner of Jazzclues and back then when we were still getting to know each other, he recommended me as a performer and I got the chance to finally perform for the bar. I was about 21 at that time as well!
