Dear Minh Phuong, Hi! My name is Annmary Saji and I am a final year animation student graduating in 2026 from School of Art, Design and Media- Nanyang technological University. I am keen on applying for a role as story artist/ Junior art director at your company!

I have seen the kind of work your studio has put out under your direction and I am very in awe of the detail and passion that is present in the animations that have been produced by your studio. I am someone who is very passionate about storytelling and animation, and I really enjoy being part of the process as well. I also like pitching new ideas to people and collaborating with artists of all kinds (not just limited to visual artists). I have experience with directing and producing two animated short films, composing music scores for films and art projects. So not only will I be able to offer my skills as a visual artist but I can also provide input in combining sound and visuals together. I also like to work with people and I think understanding how people work and catering to their needs is also important while being part of the creative process. I want to learn

more from seasoned professionals in the industry and understand how things work on the grand scale of things and gain experience in studio environments. I hope you consider my application for your consideration and I am also open to other roles related to producing and project management as well. I am attaching my portfolio for your reference! Link
